

# Shaping the Alpine H2 vision 2030

Regione Piemonte Tower  
Sala Trasparenza  
piazza Piemonte 1

---

**16th - 17th**  
**APRIL 2025**

**TORINO**  
**(Italy)**

---

**The European Hydrogen strategy was launched in 2020. After five years, what concrete impact did it have for the Alpine area? And what will the common goals be towards 2030?**

These are the main questions around an Eusalp event that will be held in Turin (Italy), hosted by the Piedmont Region, on April 16th and 17th.

During this event, key decision makers from the Eusalp Regions will gather to share ideas and shape visions for the future of clean hydrogen in the Alpine area. Starting from the letter of intent signed in 2021 by 11 Eusalp Regions, the debate will be structured around two round tables focusing on regional cooperation to reach the 2030 objectives and possible lobbying actions to be addressed to the European institutions.

The results of the debate will feed two documents (a position paper and some policy recommendations) which will be submitted for approval by the governance of the Strategy as outcomes of the Cross Cutting Priority in Accelerating the Energy Transition for a Carbon-Neutral Alpine Region.

We look forward to seeing you in Turin on 16th and 17th April !

**Book your place [here](#).**

# Shaping the Alpine H2 vision 2030

Regione Piemonte Tower  
Sala Trasparenza  
piazza Piemonte 1

April 16th
